“UC Riverside: The State of the Campus”

Presentation by:
Timothy P. White
Chancellor
University of California, Riverside

The success stories coming from UCR are impressive and inspiring. These stories of individual achievement, groundbreaking research, and community engagement are particularly moving as they come in a time of severe budget cuts, increased student fees, and faculty and staff reductions.

Funding challenges present a serious threat to UCR’s goal of excellence, affordability, and accessibility, yet the campus must not lose sight of its aspirations. Priorities must be set. Choices must be made. The recent adoption of the campus strategic plan, UCR 2020: The Path to Preeminence, has charted a course for how UCR will work to effectively focus limited resources to ensure continued success and even higher achievement.

Hear Chancellor White highlight the goals we will strive for, the challenges that lie ahead, and the ways in which the entire campus community will continue to “Live the Promise.”

In addition to fighting for UCR, Chancellor White has spoken and written about the “Crisis in Education” facing the Inland Empire and the competitive disadvantages we face if we fail to act. He has brought together education, business, and community leaders from throughout the region to work on this issue. Chancellor White stresses that not only can education be the “great equalizer” for social mobility in a single generation for families, it can be an economic stimulus for both the Inland region and the entire State.
