Government & Community Relations -101
900 University Avenue
Riverside, CA  92521-0153

For more information, please call: (951) 827-5184
or visit www.community.ucr.edu/groups/
U.C. Riverside has a profound impact on the inland region. Its amazing research creates exciting new knowledge and helps drive California’s economic engine. Its art programs create opportunities for cultural and artistic expression. The medical school is working to improve the health of inland residents. And, most importantly, UCR educates the next generation of Californians.

Now in our 67th year, The Citizens University Committee (CUC) is one of the best ways for you to tap into UCR’s vibrant energy!

We host dynamic monthly breakfast meetings which feature the latest cutting-edge research and ideas UCR has to offer. The CUC provides a unique and fun link between the campus and the community. Our breakfasts usually also feature elected officials, campus and community updates, and a great opportunity to network and meet new people. Take a look at our just announced 2015-2016 speaker lineup and mark your calendars!

As the organization that fought to bring a UC campus to Riverside over six decades ago, the CUC continues to advocate for UCR, most recently in the effort to fund the UCR School of Medicine. We also support deserving UCR students through our scholarships, including the newly created Justice John Gabbert/CUC Endowed Scholarship Fund.

Your membership fee and participation help keep CUC continuing year after year. Please consider becoming a member and joining us at our monthly breakfasts.

Thank you very much for your continued support!
